A TYPICAL DAY AT nDZUTI SAFARI CAMP

Below is an outline of a typical day while on safari. The schedule can be tailored to fit guests' needs. The below is merely a guideline.

- 05h00 – Wake-up call
- 05h30 – Coffee and a light breakfast
- 06h00 – Depart on morning game walk or game drive
- 09h00 to 10h00 – Return to camp
- 11h00 – Brunch
- 15h00 – Tea and a light lunch
- 16h00 – Depart on afternoon game drive and night drive
- 19h00 to 20h00 – Return to camp and drinks at the bar
- 20h00 – Dinner – inside or around the campfire

LOCATION

nDzuti camp is located deep in the heart of the Klaserie Private Nature Reserve, next to the Klaserie River. It is located roughly 40 km from the Enkulu gate, which is 12 km from Hoedspruit airport. The reserve shares unfenced borders with the Kruger National Park and the Timbavati Game Reserve. The nDzuti Safari Camp has exclusive traversing rights of over 3500 hectares either side of the Klaserie River.

GPS co-ordinates for nDzuti Safari Camp:
S 24° 10' 22.0"
E 31° 11' 55.9"

HOW TO GET THERE

These are the options:

1. Self-drive to the camp. You will need to be aware of gate closure times and conservation fees.
2. Fly from Johannesburg, Durban or Cape Town to Hoedspruit and then arrange a road transfer to the camp through our reservations office.
3. There is a daily shuttle service from Pretoria/Johannesburg/OR Tambo that departs approx 6am and arrives at the Bush Pub & Inn (pick up point) close to the Hoedspruit Airport at approx 12pm. From here you will be road transferred to nDzuti. These transfers can be booked through our reservations office.

GENERAL TRAVEL INFO

Weather

The average mean rainfall for the year is 350mm, with most rainfall occurring during mid-summer (November – February). The rainfall generally occurs in the form of thunderstorms where a downpour is experienced, very seldom lasting longer than a few hours.

The mean average maximum temperatures range from 24.5°C in July to 31.5°C in January with the mean monthly minimum occurring in July at a temperature of 8.5°C.

Wildlife

During the dry season the vegetation is sparse and wildlife congregates around watering holes. During the wet season the vegetation is dense and wildlife is more dispersed. Expect to see the Big Five over the course of a 2-3 night stay. There is a resident pride of lions called the River Pride that is often spotted close to the banks of the Klaserie River.

In addition to the **Big Five** animals that are regularly sighted include giraffe, zebra, warthog, spotted hyena, baboon, hippo, impala, kudu, vervet monkey, waterbuck, wildebeest, bushbaby, mongoose, duiker and steenbok.

You might also see wild dog, cheetah, honey badger, porcupine, aardvark, civet, caracal and serval. Birds that are regularly seen are vultures, owls, bee-eaters, rollers, eagles, bustards, hornbills, starlings and shrikes.

Game Drive Vehicles

On game drives you are able to get a lot closer to big game. Because it is a private reserve, rangers have permission to go off road. The animals are generally habituated to the vehicle. This means that they are used to the vehicle approaching them and know that it never causes them harm. This enables you to get within five to 10 metres of the large animals – and safely! All game drives are conducted in open 4 x 4 Toyota Land Cruisers or Land Rovers.

Malaria

The Klaserie region is a low risk malaria area. It is best to consult your local Doctor for advice. Generally, the type of medication needed for the Kruger area is Malarone, Doxycycline or Melfloquine. Mosquitos are more prevalent in the wet, warmer season. Mosquito repellent and creams are also great preventative measures.

What to Pack

During the summer months the weather can be hot and sticky. You may want to bring a few outfits.

- Comfortable walking shoes
- Sun hat, sunglasses and sunblock
- Cameras and binoculars
- Light, neutral coloured clothing
- Bathing suit
- Warm jackets essential in winter (May – Oct)
- Beanie and gloves – the mornings are cold during winter
