### INTRODUCTION

Cradled on the banks of the great Olifants River, beneath towering fig and natal mahogany trees lies Ezulwini River Lodge. Ezulwini, meaning 'place of paradise', remains true to its name in the secretive construction of River Lodge, which is a bird-lovers utopia, and a wildlife wonderland for all of the Balule beasts.

The great leafy branches of the riverine forest drape over the viewing deck providing shade and quiet for lazy afternoons at River Lodge. The outdoor lounge, swimming pool and inviting bar area are equipped for comfort, while nighttime lanterns turn the place into bush dining bliss.

Big tusker elephants of the Kruger Park come to feed on the trees in the riverbed, while resident lions can be heard calling into the night. Ensuite bedroom rondavels are topped with thatch and joined via wooden and concrete pathways, keeping to the authentic feel of the lodge.

### GENERAL TRAVEL INFO:

#### **Weather**

The average mean rainfall for the year is 350mm, with most rainfall occurring during mid-summer (November - February). The rainfall generally occurs in the form of thunderstorms where a downpour is experienced, very seldom lasting longer than a few hours. The mean average maximum temperatures range from 24.5°C in July to 31.5°C in January with the mean monthly minimum occurring in July at a temperature of 8.5°C.

#### **Wildlife**

During the dry season the vegetation is sparse and wildlife congregates around watering holes. During the wet season the vegetation is dense and wildlife is more dispersed. Expect to see the Big Five over the course of a 2-3-night stay.

In addition to the Big Five species that are regularly sighted and enjoyed at close range, animals frequently seen in the Balule Reserve include giraffe, zebra, warthog, spotted hyena, baboon, hippo, impala, kudu, vervet monkey, waterbuck, wildebeest, bush baby, mongoose, duiker and steenbok. A specialty at River Lodge is the Sharpe's grysbok, which enjoys the habitat.

Some other very special members of the wild you

might also see include the wild dog, cheetah, honey badger, porcupine, aardvark, civet, caracal and serval. Birds can be spotted from all over the lodge, but some of the top species are vultures, owls, bee-eaters, rollers, eagles, bustards, hornbills, starlings and shrikes.

#### **Malaria**

Before travelling, guests are encouraged to consult their local doctors on anti-malarial medication and preparation, however a repellent stick or spray is effective and should be utilised. All rooms have canopy mosquito nets adding an extra precaution.

### WHAT TO PACK

The climate in the Kruger lowveld brings hot summer months between October and April when the rainfall is high, and so is the temperature, reaching over 40 degrees Celsius. The dry winter months begin in May and carry on until October/November, during which time the weather is mild during the day with temperatures averaging mid-high 20s, while very cold in the evenings and early mornings.

- Throughout the year, we recommend packing lightweight, neutral-coloured clothing with short sleeves
- Bring sun protection in the form of sunblock, sun hats, and glasses.
- Scarfs, jackets and gloves are needed for early mornings on game drive, especially in winter.
- Comfortable walking shoes as well as open sandals for when the weather is hot.
- Bring along cameras, binoculars and recording gadgets to keep a record of the many wildlife sightings.
