INTRODUCTION

nThambo Tree Camp is the sister camp to Africa on Foot and offers affordable, luxury accommodation in your choice of five wooden tented cabins on stilts. Located eye-level with the trees, it's ideally situated to game watch from the comfort of your verandah. The camp is not fenced off and you will hear animals grazing nearby. Don't be surprised to see elephants drinking from the splash pool in front of camp.

There is an outdoor lounge and dining area, under thatch, that offers guests beautiful views of the plain and small waterhole in front of camp, as well as the Drakensberg mountain range in the distance.

The camp prides itself on being eco-friendly – nThambo uses a grey water system, solar power and has an in-house recycling program.

LOCATION

nThambo Tree Camp is located in the heart of the Klaserie Private Nature Reserve. The reserve shares unfenced borders with the Kruger National Park and is west of the Timbavati, covering 60 000 ha on either side of the Klaserie River. As there are no fences wildlife roams free between the major reserves that form the Greater Kruger Park, which include the Klaserie, Timbavati, Manyeleti, Sabi Sands and the Kruger National Park.

GENERAL TRAVEL INFO

Weather

The average mean rainfall for the year is 350mm, with most rainfall occurring during mid-summer (November - February). The rainfall generally occurs in the form of thunderstorms where a downpour is experienced, very seldom lasting longer than a few hours.

The mean average maximum temperatures range from 24.5°C in July to 31.5°C in January with the mean monthly minimum occurring in July at a temperature of 8.5°C.

Wildlife

During the dry season the vegetation is sparse and wildlife congregates around watering holes. During the wet season the vegetation is dense and wildlife is more dispersed. Expect to see the Big Five over the course of a 2-3 night stay. There are two resident prides that traverse the Africa on Foot area – the Ross and Giraffe pride.

In addition to the **Big Five** animals that are regularly sighted include giraffe, zebra, warthog, spotted hyena, baboon, hippo, impala, kudu, vervet monkey, waterbuck, wildebeest, bushbaby, mongoose, duiker and steenbok.

You might also see wild dog, cheetah, honey badger, porcupine, aardvark, civet, caracal and serval. Birds that are regularly seen are vultures, owls, bee-eaters, rollers, eagles, bustards, hornbills, starlings and shrikes.

Game Drive Vehicles

On game drives you are able to get a lot closer to big game. The animals are generally habituated to the vehicle. This means that they are used to the vehicle approaching them and know that it never causes them harm. This enables you to get within five to 10 metres of the large animals – and safely! All game drives are conducted in open 4 x 4 Toyota Land Cruisers or Landrovers.

Malaria

The Klaserie region is a low risk malaria area. It is best to consult your local Doctor for advice. Generally, the type of medication needed for the Kruger area is Malarone, Doxycycline or Mefloquine. Mosquitos are more prevalent in the wet, warmer season. Mosquito repellent and creams are also great preventative measures.

What to Pack

During the summer months the weather can be hot and sticky. You may want to bring a few outfits.

- Comfortable walking shoes
- Sun hat, sunglasses and sunblock
- Cameras and binoculars
- Light, neutral coloured clothing
- Bathing suit
- Warm jackets essential in winter (May – Oct)
- Beanie and gloves – the mornings are cold during winter
