## ROOM INFO

### ROOM 1 | **PORCUPINE**

Named after the prickly porcupines that are often seen from the deck after dark, this room is on ground level and is one of the most spacious at 85 SQM in size and the most secluded of all the suites. Elegant touches include a Daniel Novella piece, Persian rugs, Melvin & Moon chairs, a large leopard oil painting by James Stroud, hanging palm lights and a 2.4m Ardmore wall hanging, making this the most colourful of spaces. The outside seating area nestles in nature and is particularly perfect for romantic sundowners. Indoors there are more lounge areas to sit back and enjoy the eclectic artwork which adorns this room. The bathroom boasts a double vanity basin, free-standing stone bath and both a spacious indoor / outdoor rain shower. Porcupine is for the wilder at heart.

### ROOM 2 | **HONEY BADGER**

Back in the beginning of the Safari Moon venture a resident honey badger would often visit this room deck to get to the tangled leadwood, which at the time was home to a hive of honey-making bees! Named after this tenacious creature, this room is decorated in true "Out Of Africa" style with Melvin & Moon Chairs, a magnificent mahogany chest from India, big-cat book holders, a Silk Persian and a local art piece by Corbus Van der Walt. An ornate Indian door opens to reveal a Daniel Novella piece and a passage

from the main lodge to both Honey Badger & Nyala but there are also private entrances to each of these rooms. Your private deck is cosily enclosed and raised above a succulent garden, this room gets a beautiful golden glow in the evenings, with dappled light from the leadwood which is built into the quirkily shaped deck. The bathroom has a large Victorian Claw bath, double basin vanity and an indoor / spacious outdoor shower. Honey Badger is for the Old Africa enthusiasts.

### ROOM 3 | **NYALA**

Overlooking the garden grounds and surrounding bush, Nyala are often seen from this deck quenching their thirst at the bird baths or nibbling the tender new shoots. Located on ground level and adjacent to Honey Badger, this room is also attached to the main lodge but has two entrance points to ensure seclusion. Unlike the other suites, Nyala has more than a few nautical elements inspired by Africa's old trade roots. However, this room also has both African and Asian aspects to it, from the wonderful local wool carpet (from the hand-made project in nearby Acornhoek) to the large Chinese style mural and fabric finishes on the sofas and cushions. The bathroom has an indoor rain shower which opens out onto a spacious outdoor rain shower which has an overhanging bush-willow. This room also boasts a built-in bathtub. Nyala is for the lovers of luxury.

### ROOM 4 | **BUSH BABY**

Aptly named after the busy bush babies which can be seen bounding about outside, this room is located in the lodge, up a short staircase from the main grand entrance. The highlight of this room are the sunset views from the

HONEY BADGER ROOM

elevated outside balcony which overlooks the main lodge, pool and surrounding bush. Though it may not have an outdoor shower it does have a large walk-in wardrobe / dressing area, double vanity basin, walk-in rain shower and a stylish freestanding tub. Large windows make this room lovely and light, but pom-pom lined blinds can be pulled down with ease for privacy. Melvin & Moon chairs padded with Lo-Ki beetle cushions create a cosy corner perfect for an afternoon of reading or simply relaxing. Exquisite gold-side tables and elegant lamps sit beside the four poster bed and wildlife themed finishes can be found all over this room, from the animal artwork, to the ostrich egg detailed pillows. Bush Baby is ideal for the discerning traveller.

#### ROOM 5 | LEOPARD

Named after one of Africa's most elusive inhabitants, the leopard. Owners Nicola & Guy have had a few sightings since purchasing the property and the beauty of these felines is featured throughout the lodge, from printed throws to stunning sculptures. However the centre-piece of the Leopard Room is another oil painting by James Stroud which regally hangs above a splendid Chesterfield velvet sofa with hand crafted embroidered cushions from the local Kaross ladies. Glamorous is the word that best describes this room which can be found elevated above the bush-veld and enjoys excellent views from the private deck. A large Moroccan inspired outdoor shower also is a main feature in this suite overlooking the majestic Drakensberg Mountains range.

Inside, a beautiful blue-hued Persian, bejewels the floor beneath your feet and beaded cluster chandelier bring light and elegance to the bathroom which boasts a

freestanding stone bath, double vanity basin, walk-in shower and decorative details. Leopard is the room for the romantics.

#### ROOM 6 | GIRAFFE

Roaming the wildlife estate, giraffe are often seen in front of this room browsing the branches of the bush-veld that surround Safari Moon. Positioned on ground-level the four poster bed overlooks the natural surrounds and the spacious deck where one can relax with a glass of wine or a good book. Artistic details include cut out venetian mirrors, another glorious piece from James Stroud, patterned Persians, hand-woven baskets and throws creating a stylish space. Finally velvet cushions paired with crisp white linen provide a luxurious finish. The glass beaded local bunches of lights create drama in this space and bring an abundance of atmospheric warmth to the room. The freestanding stone bath, walk-in shower, outdoor shower and a double vanity basin are also featured here. Giraffe is for those seeking a peaceful retreat.

## LODGE FEATURES & FACILITIES

Upon arriving at Safari Moon a pathway winds past a sprawling star chestnut tree, waterfall feature and succulent gardens. A splendid private collection antique chandelier creates a dramatic entrance and sets the stage for the opulent guest experience that awaits you. Styled with many a statement piece from Nicola's collection including a Lionel Smit sculpture and painting which adorns the entrance and lounge. High-ceilings create a grand interior appeal but the centrepiece of this space

NYALA ROOM

Water-features are found throughout the gardens and create a tranquil atmosphere. Beautiful Balinese parasols catch the bush-veld breeze and create an inviting appeal to the Safari Moon pool deck which is also shaded by a flowing knobthorn, little marula and a twisted velvet corkwood. A hanging chair and leopard orchid suspends in the corkwood which overhangs the bar.

Tapas-style platters can be ordered at lunch, consisting of a gourmet spread which includes a variety of homemade dips, pâtés, breads, cheeses, pickles and salads. Best paired with a bottle of Creation wine, and can be served by the pool or to your room. Leaving the lodge for the day? Packed breakfasts and homemade picnic lunches can also be arranged to take with you on any self-drive excursion or day trip. Dinners are a lavish affair and are usually served communally under the Ardmore collection, alfresco on the deck or fireside in the boma. Nicola's flair

for flavour, presentation and winning combinations is what makes the food here so enjoyable. There's something for all and no matter the dietary requirement or intolerances everyone can be catered for at Safari Moon. Depending on the South African season, Nicola changes up the menu, with lighter dishes like gazpacho, pink pickled salads, and sorbets in the scorching summer months and wintertime it's all about the sumptuous potjies, creamy chicken pies, and spiced poached pears. don't fancy venturing very far from the lodge. Explore the self-drive game drive routes, make use of the bird hides and cycle tracks, horse riding or simply take a leisurely stroll around the estate. Afroecology spa treatments are also available to enjoy on site and are best booked prior to arrival.

Further afield there is an array of guided safari excursions, scenic tours and adventures in the Lowveld region. The most popular has to be a trip into the Kruger National Park. Spend sunrise to sunset scouring this iconic wilderness region, searching for its diverse array of species that roam, stalk, soar and sprint. There are plenty of options when deciding on how to experience the park. Self-driving popular and a fun day out done at your own pace, there are easy maps to follow and recent sightings are pinned at the different rest stops. Privately guided day trips can be arranged from the lodge for both the KNP and neighbouring Greater Kruger reserves. This option offers a more immersive and informative safari experience

with highly knowledgeable local guides and trackers. More specialist trips such as wildlife photographic workshops, bird-watching tours and big-five walking safaris can also be arranged. Take a day to also discover the dramatic landscape of the Panorama Route, stopping off at the many viewpoints along this picturesque journey. We recommend the boat cruise on the Blyde River Canyon, which is the third largest Canyon in the world and the only 'green' one due to its abundance of flourishing subtropical flora and fauna.

We have listed the most popular activities to do nearby, in other words a bush-veld bucket-list :

## WHEN TO GO

The Kruger region is considered a year-round destination and has two distinct seasons depending on your desired safari experience.

May - October is the dry season and is regarded as one of the best times for game-viewing opportunities as all life is drawn to the remaining water-sources. Wildlife is more easily spotted in the thinning foliage and open areas during this time of year. You guessed it, it gets chilly in Winter so remember your beanies, scarves and varied safari attire for those crisp early mornings and evenings on safari. These month we relish the crackle of our cosy boma fire and enjoy alfresco fireside dining on clear and starry nights.

The summer rains bring life and colour back to the bushveld from November - April and offers more of a scenic experience on safari. This time of year life abounds the veld as many animals give birth, providing a predator's paradise. The bush is beautiful this time of year with every viridescent shade imaginable, replenished waterholes and flourishing wildlife. The thicker vegetation just means you may have to search a little harder, but bird-watching proves effortless as migratory birds are around for the summer. This time of year the temperatures can reach

GIRAFFE ROOM

their 40's, humidity can get quite high and downpours are expected, these don't usually last long and often provide spectacular skies and thrilling thunderstorms. Summer is perfect for a lightweight wardrobe, but don't forget your swimsuit and raincoat. In summer you'll be keen to cool off in the pool... but complete the scene by ordering a crisp classic G&T at the Safari moon bar. African afternoons at their best.

## WILDLIFE & WILDERNESS AREAS

The wildlife estate is home to a variety of different species and the following can be spotted in the estate: giraffe, zebra, nyala, genets, kudu, impala, steenbok, civets, warthog, bush baby, duiker, wildebeest, porcupine, honey badger, monkeys, baboons, mongoose, and even the occasional wild dog pack and leopard. Bird baths attract a variety of species to the Safari Moon gardens and early mornings and evenings are the best time for bird-viewing and bird-song. Keep an eye out for glossy starlings, grey go-away birds, crested barbets, Natal spurfowls, sunbirds, wood hoopoes, hornbills and owls, just to name a few. Take a trip to one of the dams or raised hides in the estate and explore the estates game-drive routes where you can tick off a few species sightings before even heading into the Kruger!

The Kruger National Park is home to everything species you associate with Africa and more. This iconic reserve is home to the big-five; leopard, lion, buffalo, elephant & rhino. Exceptional game-viewing is almost guaranteed in the KNP, but like any wilderness area it's all about being in the right place at the right time and every day is

different. Patience is key and waterholes are ideal to stake out, especially in the driest winter months. Take a wildlife tick-list and see how many species you can find during the course of the day. Did you know the Kruger has over 500 different bird species, 148 mammals, 118 Reptiles, 35 Amphibians, 53 fish and 1,990 differing trees, grasses, shrubs, sedges and succulents. Some of the most common and sought after wildlife sightings to be had in the park include: elephant, lion, leopard, cheetah, African wild dog, spotted hyena, white rhino, black rhino, hippo, zebra, giraffe, buffalo, kudu, waterbuck, sable, nyala, impala, blue wildebeest, crocodile, warthog, caracal, vervet monkey, baboon, serval, aardvark, pangolin, mongoose, honey-badger, civic, black-backed jackal, side-striped jackal, steenbok, bushbuck, klipspringer, aardwolf, African wild cat and genets to name but a few.

The Kruger is a bird-lovers paradise and being home to over 500 species throughout the year, you're bound to tick off a few top species or two. Keep an eye out for: martial eagles, kori bustards, ostrich, lilac-breasted rollers, brown-headed kingfishers, giant eagle owls, red-billed quelea, oxpeckers, grey herons, African fish-eagles, white-

bellied sunbirds, bee-eaters and barbets. A pair of quality binoculars and zoom lens is always a good idea if birding is high on your list. Get to know the Kruger, it's different routes, waterholes, rest stops and wildlife hotspots. We can recommend roads to take that will take up the full day and also the closest gates and quickest routes in and out of the National Park. Remember to adhere to the official KNP timings for entering and exiting the park.
